JOB DESCRIPTION

Company: 2e Systems GmbH

Location: Bad Soden am Taunus (Frankfurt), Germany

Web: http://www.2e-systems.com/

Type of Employment: Full Time Employment

Java Developer (m/f) - Frankfurt / London

2e Systems GmbH

We are a well-established, international software development company providing IT services to airlines all around the world. We focus on Internet Booking Engines, Online Check-In Solutions and Passenger and Crew Notifications and make use of many of the latest open source frameworks and technologies to build large scale, stable and quality products.

We are looking for a Junior / Mid-Level Java Developer to join our Frankfurt office and work on our Online Check-In Solutions.

If you want to be part of our success and are looking for a challenging job working within a team of experienced engineers, we welcome your application.

Job Description

The applicant must be able to participate in all phases of the life-cycle of a project, from concept to production/maintenance, including contact with the customers and analysis of their requirements.

Main Tasks

- Development and maintenance of large, dynamic applications
- Interaction with project managers and customers
- Analysis of requirements
- Evaluation and prioritisation of activities

JOB DESCRIPTION

- Close collaboration with colleagues and clients abroad

Position Requirements

- Strong problem solving and debugging skills

- Strong knowledge of Java

- Strong relational database skills (preferably MySQL)

- Some knowledge of Unix/Linux and Web Services (SOAP / REST)

- Business level English (spoken and written) / German is an additional bonus

Beneficial Skills

- Experience in defining / creating / maintaining interfaces to other systems, e.g. Web Services (SOAP / REST)

- Experience with distributed version control systems such as Mercurial, Git or similar

- Experience with build automation tools such as Maven, Jenkins or similar

- Experience with JMS or any other messaging standard

- Knowledge of technologies such as Spring, Hibernate, JCS, JMS, JasperReports

- Experience in systems administration

- Experience with high volume applications

The applicant should bring energy and enthusiasm to the work place with a "CAN DO" attitude, must be disciplined and have a strong sense of organisation. Also be able to write good, structured and clean code that can be quickly grasped and maintained by other team members.

If this challenge appeals to you, and you can offer drive, commitment, and enthusiasm in an unconventional, creative atmosphere, we look forward to hearing from you.

_____

JOB DESCRIPTION

Please send a full application, with cover letter, to jobs@2e-systems.com and add "Frankfurt" to the subject line for the application to reach the right people. Note that a cover letter must be included together with CV introducing your application and explaining why you think you would be suitable for the job. Sorry, but we won't accept applications without this.
