

JOB DESCRIPTION

Company: 2e Systems d.o.o.

Location: Zagreb, Croatia

Web: <http://www.2e-systems.com/>

Type of Employment: Full Time Employment

Web Developer (Mobile/App) m/f - Zagreb

2e Systems

We are a well established software development company providing IT services to airlines all around the world. In Zagreb we focus on mobile and notification products, creating innovative Apps and pushing messages to airline passengers, pilots and cabin crew. We use many of the latest open source frameworks and technologies to build stable and quality front ends. We have a very positive and laid back office atmosphere where hard work is recognized.

Job Description

2e Systems are once again looking to expand their Web / App development team in Zagreb. We're looking for a developer with Web Development skills who can think mobile!

We develop and host large scale websites aimed at Desktops / Tablets / Smartphones for the airline and travel industry including some of the biggest airlines in the world. We're looking for a focused developer who can make a difference to our team, working with the latest HTML5 (and related) technologies to build world class Websites and Apps. We are a small and highly productive company who work to tough deadlines but with a lot to show for our hard work. If you want to be part of our success and are willing to meet the challenge, we welcome your application.

We're looking for an enthusiastic candidate who has solid Web Development skills as a base but any experience in mobile / Apps would be a strong bonus.

JOB DESCRIPTION

Requirements

- Experience with: PHP, HTML5, JavaScript, JQuery, JQueryMobile and CSS or at least most of these
- Knowledge of other frameworks like Bootstrap/Backbone desirable
- Strong database skills, preferably MySQL. Be able to write complex SQL queries
- Creation / connection to RESTFUL services using XML / JSON.
- Experience with creating Apps or cross-compiling Web Apps to a native Apps e.g. Using PhoneGap highly beneficial
- Have a proven ability to create great websites using the latest technologies
- Strong problem solving skills and debugging skills
- Should have used professional version control systems and branching models. Mercurial / Git is a bonus
- Disciplined in software testing and working in a professional software team
- Strong sense of organisation, able to write good, structured and clean code that can be quickly grasped and maintained by other team members
- Highly motivated and enthusiastic with a strong desire to create great user interfaces

Excellent spoken and written English is very important. German and/or Croatian would be an additional bonus.

A Bachelor's degree or equivalent qualification/working experience in Web/App development.

What we offer

International company operating on the world market, competitive salary, international travel, interesting and dynamic industry. Breaking new ground on Mobile / App development.

If this challenge appeals to you, and you can offer drive, commitment, and enthusiasm, and if you would like to work in an unconventional, creative atmosphere with plenty of space we look forward to hearing from you. Please send a full application, with cover letter to the address below, or preferably by e-mail to jobs@2e-systems.com.
