

JOB DESCRIPTION

Company: 2e Systems GmbH

Location: Zagreb, Croatia

Web: <https://www.2e-systems.com/>

Type of Employment: Full Time Employment

Frontend Systems Developer (m/f) - Zagreb

2e Systems GmbH

2e Systems is an international aviation software development house serving airlines all around the world. In Zagreb (established in 2009), we develop full stack solutions for passengers, pilots and inflight cabin crew.

We have separate Frontend (PHP, JS, HTML/CSS) and Backend (Java) teams to ensure maximum focus on the technology and we cover the full development life cycle from concept to delivery using agile methodologies. We have an engaged and positive office atmosphere with plenty of opportunity to take responsibility which is recognised in the team and beyond!

Requirements

- Senior developer required, additional position for a junior might be considered for the right candidate
- 3+ years of full-stack frontend development (web and/or mobile apps using PHP, JS & HTML/CSS)
- Good experience and knowledge of modern JavaScript and PHP frameworks/libraries
- Able to work with relational and NoSQL databases such as MySQL and MongoDB
- Experience or strong interest in development of mobile apps - either hybrid or using native toolkits
- Proven ability to embrace new technologies and create great user experiences
- Professional and mature approach to balancing the advantages of new technologies versus established ones
- Strong problem solving skills and debugging skills
- Well versed in software best practices like version control, branching models, code review, testing and deployment tools, etc.

2e Systems - making your business *fly*✈

JOB DESCRIPTION

- Disciplined in software testing and commitment to quality
- Strong sense of organisation, able to set an example of good, structured and clean code that can be quickly grasped and maintained by other team members
- Leadership and mentorship skills
- Highly motivated and enthusiastic with a strong desire to not only create but also maintain and improve software

Spoken and written English is very important since all business communication is in English.

Bonus skills

- Experience in ReactJS / React Native
- Experience in Angular (1) / Ionic stack
- Experience in Laravel / Lumen
- Creation / connection to RESTful services using JSON
- Agile software development experience (ideally with some as a scrum master)

Please submit your CV in English together with a cover letter introducing your application and explaining why you think you would be suitable for the job. Send it to jobs@2e-systems.com.

What we offer

- Competitive salary
- Flexibility of office hours
- A motivating working environment within a dynamic and international team
- Education encouraged by participating in local conferences, providing books, offering certification options, weekly / monthly developer meetings
- Occasional international travel for client meetings
- Interesting and dynamic industry with airlines
- Great office location and environment (Top floor of Eurocenter building on Miramarska cesta)
- Free coffee, tea, cookies, fruits and healthy snacks
- Other benefits
