

JOB DESCRIPTION

Company: 2e Systems GmbH
Web: <https://www.2e-systems.com/>
Job title: Project Manager
Type of Employment: Full-time Employment

Project Manager – Frankfurt or Zagreb

Imagine what you could do here. At 2e Systems, creative ideas have a way of becoming wonderful products, services, and customer experiences very quickly. Bring passion and dedication to your job and there's no telling what you could accomplish. 2e Systems is seeking a dynamic and talented Project Manager to join our global Project Management team.

2e Systems is a leading computer engineering and development company specializing in aviation software solutions, like online booking, check-in, mobile app and communication solutions for the travel industry; we develop and operate critical systems for our major airline clients worldwide, and our software development team is central to our success.

Our head office is in the Frankfurt/Main area, Germany, and we are looking for the right candidates to join our growing teams in our Frankfurt or Zagreb offices.

Job description

Our Project Managers within 2e Systems are the link between our clients and our internal teams and are responsible for overseeing the success of projects and ensuring the delivery of quality software for both new and existing clients: in scope, on time and within budget.

Project Managers are responsible for developing and managing a project plan for our clients, defining a roadmap of expected deliverables and managing the client relationship and expectations.

Projects Managers are required to communicate regularly in a professional and structured manner with both our clients and our internal teams. They are also responsible for supporting the management of company resources, so efficient planning is key to the role.

Safeguarding client satisfaction through effective project management will build relationships, trust and belief in our capabilities which in turn will support 2e Systems in our retention of clients and continued growth objectives.

JOB DESCRIPTION

Main tasks of the position

A key function for Project Managers is to oversee and coordinate the clients' requirements into a project plan for 3/6/12 months (depending on the client) and ensure all stakeholders are aware of the status of the project and plans. Project Managers are expected to coordinate and lead the planning and implementation of projects with our clients by:

- Understanding the scope of work and deliverables in a project
- Defining the project tasks and communicating the resource requirements to achieve the objectives
- Ensuring each stage of the project is progressing on time, within scope, on budget and to a high quality
- Understanding the service level commitments to our clients
- Communicating with our clients and liaising with all stakeholders in the project, including external third-party suppliers
- Working closely with the internal teams to identify and mitigate possible risks
- Tracking project deliverables using appropriate tools
- Supporting the Head of Project Management in projects planning, implementation and continuing support and quality assurance of our client projects
- Work closely with Account Managers to identify opportunities for new development with existing clients
- Project Managers will lead release planning in partnership with clients and internal teams
- Facilitate workshops and face to face client meetings to define project scope, goals and deliverables
- Accurately collect, define and refine client requirements
- Prepare quotations for clients
- Manage client expectations
- Co-ordinate and organize training for clients, including training for new and/or existing clients
- Ensure project documentation, including project plan, project status, software versions, and other documentation is retained and updated

Skills & Qualities

- Possess excellent communication, negotiation skills and organizational skills
- Be solution-oriented and client focused
- Present a professional image representative of the company
- Provide structure in project planning processes, releases and communication, while maintaining flexibility to accommodate changing internal and client needs
- Understanding the principles of Agile software development
- Using Scrum process to deliver the business value
- Be able to manage and lead cross functional teams
- Have a demonstrated ability to build and manage trusting relationships with internal and external stakeholders
- Have confidence in managing negotiations with clients and third parties

JOB DESCRIPTION

- Have strong decision-making abilities
- Be aware of and sensitive to cultural differences
- Have excellent spoken and written English skills
- Be able to travel from time to time for client meetings
- Be a team player

What we offer

- Work in the interesting and dynamic airline industry
- Help us grow and build innovative solutions for the medical and health industry
- We are strongly international and offer cooperation with colleagues and clients worldwide, including opportunities for international travel and transfer with 2e Systems globally
- You will work with engaged and highly competent colleagues, in independent teams with high levels of autonomy
- We have an informal and friendly environment with many exciting professional and technical challenges
- Fun office events and celebrations
- Free snacks, drinks, and coffee always available
- You will receive a competitive salary combined with good opportunities to develop professionally
- Further education and professional development are encouraged and supported
- Your work will have a direct and visible impact on our business and clients
- Combined Remote & Office work as needed

About 2e Systems

2e Systems was established in Germany in 2000. We have grown to include offices in Croatia, the United Kingdom, Australia and Romania. We use many of the latest open-source frameworks and technologies to build stable and high-quality products.

We provide airlines with internet and mobile solutions for booking flights, check-in, notifications, and crew management. Included in our list of clients are airlines such as Lufthansa, Austrian Airlines, airBaltic, Croatia Airlines, and JetBlue.

Additionally, we've ventured into projects in the healthcare Industry. We successfully completed the first major phase of a multi-vendor globally driven project for a customer in the Middle East.

We're a diverse collective of thinkers and doers, continually reimagining what's possible to help us all do what we love in new ways. Every new product we invent and improve, and every new service we create, is the result of people working together to make each other's ideas stronger. That happens here because every one of us strives toward a common goal - creating the best customer experiences.

JOB DESCRIPTION

How to apply

If you would like to be part of our success, and are looking for a challenging job working with a team of experienced service professionals, we welcome your application!

Please send your application to: jobs@2e-systems.com

And please pay attention to the following points:

- Your CV must be in English
- Please include a brief cover letter explaining why you are an excellent fit for the job

If you require help/sponsorship to work in your preferred location, please state this clearly.

We hope you understand that we will not respond to applications which do not meet these minimum criteria.

Please note that our Privacy policy applies to all communication in the job application process. Your personal data is treated confidentially and solely for the job application purpose.
