

JOB DESCRIPTION

Company: 2e Systems

Web: <https://www.2e-systems.com/>

Type of Employment: Full-time

Java Developer (m/f/d) – Frankfurt or Zagreb

2e Systems is a leading software provider for the airline industry, and we are looking for Java Developers to join our growing teams in Frankfurt or Zagreb offices.

Job Description

- Designing, developing, and maintaining complex, dynamic applications
- Analysis of business requirements
- Supporting the deployment of systems and diagnosis of problems
- Estimation and prioritization of own work activities
- Interaction with clients globally
- Close collaboration with Project Managers and worldwide colleagues

You should have a good understanding of, and experience with (some or all):

- Software development using modern languages and frameworks (ideally including Java)
- Programming concepts, data structures and OOP
- Relational database development using SQL (ideally with MySQL)
- General software development practices such as standards and code comments, etc. (ideally using IDEs such as Eclipse, Idea, Netbeans, etc.)
- UNIX like OSs (ideally Linux) as well as basics of operating systems and networking
- Highly available, highly scalable, high volume transactional systems
- Working in small teams with end-to-end responsibility for delivery of complete systems
- Reading, understanding, and contributing to technical specifications
- Source control systems and branching models (ideally using Mercurial, or any modern system such as Git)

Beneficial skills:

- Spring, Hibernate and Infinispan
- Creating and consuming APIs (e.g., Web Services / SOAP / REST / JSON)
- NoSQL databases and message queuing (ideally using JMS)
- Using build and deployment tools such as MAVEN and CI/CD tools

- Agile and/or test-driven software development
- Systems and/or database administration (e.g., performance analysis and tuning)
- Load testing tools such as JMeter
- Experience with Docker and/or other containerization tools.

We would be a perfect match if you have/are:

- Two or more years of professional experience
- Enthusiasm, dedication, and a well-organized approach
- Strong problem-solving and debugging skills
- Good clean code that can be quickly grasped and maintained by other team members
- Willingness to learn
- Proactiveness and good communication skills
- The ability to adapt to changes in work pace and operate both in a team and independently
- Willingness to travel if, and when necessary
- Excellent command of spoken and written English

What we offer

- **International cooperation** - We are an engaged international team with a flexible approach and offer cooperation with colleagues worldwide. Your work will have a direct and visible impact on our business and our clients globally.
- **Interesting and challenging projects** – We are an industry leader in the dynamic airline and innovative medical and health industry, working with modern and latest technology, frameworks, and tools using agile methodology. Our teams operate with a high level of autonomy through projects that are reaching millions worldwide.
- **Safe and healthy environment** - We are proud to say that our offices have a friendly and relaxed atmosphere. We encourage everyone to communicate openly, give feedback, and share insight and ideas.
- **Career development** - We offer extensive training and will help to ensure that you will reach your full potential. We support further education and encourage professional development to improve your knowledge and skills.
- **Pay & perks** - We offer permanent contracts with a competitive salary, paid vacation, and flexible working hours. We provide combined remote & onsite work in an attractive office location with healthy and guilty pleasure snacks, and a team taking care of the equipment you need.
- **Fun, fun, fun!** - Opportunities for international travel and possibilities to transfer within 2e Systems globally. Regular social events, like game & movie nights, fitness sessions, hiking days, etc., and team-building activities.

About 2e Systems

2e Systems is a versatile software development company specializing in airline travel technology products and innovative services for the healthcare industry. 2e Systems was established in 2000 near Frankfurt, Germany and has grown to include offices in Croatia, the United Kingdom, Australia, and Romania. We provide airlines with internet and mobile solutions for flight bookings, check-in, passenger notifications, and crew communication management. Included in our list of major international clients are airlines such as Lufthansa, Austrian Airlines, airBaltic, Croatia Airlines, JetBlue, etc. Our team is a diverse collective of thinkers and doers, continually reimagining what's possible to help us all do what we love in new ways. Every new product we invent and improve, and every new service we create, is the result of people working together to make each other's ideas stronger.

How to apply

If you would like to be part of our success and are looking for a challenging job working with a team of experienced service professionals, we welcome your application!

To submit your expression of interest, please send your CV and a brief cover letter in English to jobs@2e-systems.com

Please note that our Privacy policy applies to all communication in the job application process. Your personal data is treated confidentially and solely for the job application purpose.
