- Cross-platform development using libraries such as ReactNative
- Unix/Linux as development/deployment platform
- MySQL and NoSQL

- Working in small teams with end-to-end responsibility for delivery of complete systems
- Reading, understanding, and contributing to technical specifications
- Test-driven development and continuous integration

At 2e Systems, you'll have the opportunity to either deepen your expertise in one domain or broaden your skills across multiple technologies – the choice is yours

We would be a perfect match if you have/are:

- Two or more years of professional experience
- Willingness to learn
- Proactiveness
- Good communication skills
- The ability to adapt to changes in work pace
- The ability to operate both in a team and independently
- Willingness to travel if and when necessary
- Excellent command of spoken and written English

What we offer

- **International cooperation** - We are an engaged international team with a flexible approach and offer cooperation with colleagues worldwide. Your work will have a direct and visible impact on our business and our clients globally.
- **Interesting and challenging projects** – We are an industry leader in the dynamic airline and innovative healthcare industry, working with modern and latest technology, frameworks, and tools using agile methodology. Our teams operate with a high level of autonomy through projects that are reaching millions worldwide.
