

JOB DESCRIPTION

Company: 2e Systems

Web: <https://www.2e-systems.com/>

Type of Employment: Student Contract (long-term)

Location: Zagreb

Workplace policy: Hybrid

Industry: Software solutions for Airlines and Healthcare

Student Position: Front-end Developer (m/f/d) - Zagreb

Job Description

2e Systems is seeking motivated and curious student developers to join our front-end team in Zagreb. You will work alongside experienced developers and contribute to real production systems using modern front-end technologies. Depending on your interests and skills, you may contribute to:

- Developing and maintaining modern web-based applications using React, TypeScript, and related tooling
- Enhancing mobile features using React Native
- Supporting our backend-for-frontend (BFF) APIs and admin tools built with PHP and Laravel

As part of your work, you may also:

- Support the deployment of features and updates to sandbox environments
- Participate in diagnosing and troubleshooting issues in development and testing phases
- Collaborate closely with Project Managers, Product Owners, and international colleagues

This role offers a chance to get hands-on experience in a real development team, take part in technical discussions, and grow your skills through mentorship and collaboration.

You should have experience with or be eager to learn (some or all):

- JavaScript and TypeScript fundamentals
- React, Redux, Next.js (or other component-based JS frameworks and tools)
- HTML/CSS basics (SASS is a plus)
- PHP and Laravel basics
- Cross-platform development using libraries such as React Native
- Git for version control

- RESTful APIs or GraphQL (bonus if you've worked with any)
- Develop best practices such as coding standards, design patterns, SOLID/DRY/KISS principles, etc.

At 2e Systems, you will have the opportunity to either deepen your expertise in one domain or broaden your skills across multiple technologies - the choice is yours.

We would be a perfect match if you have/are:

- Are currently enrolled in a relevant technical university program (FER, FOI, TVZ, etc.)
- Are self-motivated and willing to ask questions, seek feedback, and improve
- Are curious about front-end and/or full-stack development
- Are comfortable working in a team and independently, while knowing when to ask for help
- Are willing to travel if and when necessary
- Have a good command of English for reading documentation, communicating with colleagues, and coding

What we offer

- **Paid Mentorship** - Opportunity for practical learning experience working over three months with a mentor one-on-one. During this time, students will gain insights into our legacy and current projects, as well as become familiar with the tools, frameworks, and programming languages used by our departments.
- **Flexible Scheduling** - We understand that your studies come first. That's why we offer flexible working hours and arrangements to accommodate class schedules, exams, and other student commitments. It's important to us that you can balance your academic obligations while gaining valuable hands-on experience.
- **Interesting and Challenging Projects** - Opportunity to work with modern applications while applying agile methodologies. This experience provides enterprise-level exposure and the opportunity to collaborate within international teams, all while enjoying a high degree of autonomy.
- **Pay & Perks** - Opportunity to secure a permanent contract with a competitive salary. Students enjoy 10 days of paid vacation. Combined remote & onsite work in an attractive office location that provides healthy snacks and indulgent treats. A food allowance is provided with increased office attendance, and we cover commuting expenses and parking. Our team is dedicated to taking care of all the equipment you need!
- **Fun, Friendly & Full of Ideas** - We operate in a relaxed and supportive environment where open communication and innovative ideas are always encouraged. Whether you're collaborating on a project or enjoying a board game night, there are plenty of opportunities to connect, grow, and have a good time along the way.

About 2e Systems

2e Systems is a dynamic software development company specializing in cutting-edge technology solutions for the airline and healthcare industries. Founded in 2000 near Frankfurt, Germany, we have expanded our global footprint with offices in Croatia, the United Kingdom, Australia, and Romania.

We develop advanced internet and mobile platforms for the aviation sector, supporting key functions such as flight booking, online check-in, real-time passenger notifications, and crew communication management. Our clients include leading international airlines such as Lufthansa, Austrian Airlines, airBaltic, Croatia Airlines, and JetBlue.

We are a diverse and collaborative team of creative thinkers and problem-solvers, driven by a shared passion for innovation. Our work environment encourages fresh ideas, teamwork, and continuous improvement. Every product we develop and every service we deliver is the result of people working together to make travel and healthcare better for everyone.

How to apply

Ready to take the next step in your career and join a team of experienced tech professionals? We'd love to hear from you.

Please send your CV and a brief cover letter in English to jobs@2e-systems.com, telling us why you'd be a great fit for the role.

All application materials will be handled in accordance with our Privacy Policy. Your personal data will remain confidential and used exclusively for recruitment purposes.
